

GARGOYLE
rooftop guardrail

SIMPLE BUT EFFECTIVE

A non-penetrating fall protection solution that offers quick and easy assembly using one standard tool. Product selection is available for simple ordering processes.

VERSATILE

Gargoyle Guardrail is a passive, modular fall protection system utilizing stackable base plates to achieve regulation weight requirements. No single components over 40lbs.

PASSIVE FALL PROTECTION

Eliminate the need for active fall protection equipment and training. Reducing the extra costs associated with upkeep, fines, and non-compliance.

COMPETITIVE PRICING

Meet multiple fall protection needs with one customizable system at a competitive price. Pricing program available to partnered dealers.

ON THE LEADING EDGE OF SAFETY
