

# Rooftop Walkway, RoofWalk

FACTORY SUPPLY INC.  
3412 49th Street North  
Saint Petersburg, FL 33710

## Designed To

The RoofWalk system is designed to create a sure-footed walkway on your rooftop. This fully customizable platform utilizes non-slip materials and is installed above the roof membrane ensuring no damage is being done while it is being utilized. Utilizing our counter weighted baseplates and RoofGuard rails, this system can be tailored to any flat roof application, providing safer access to any workspace by eliminating slipping and fall hazards. Engineered for safety and built economically the RoofWalk system is a must on any rooftop where constant roof access is required.

## Why RoofWalk?

This rooftop crossover system is completely customized for your rooftop in order to allow for the safe maneuverability of workers or contractors over any hazard that may be present on your roof.

## Safety

Our rooftop walkway systems are free standing and utilize our counter weighted baseplates, eliminating the need for hardware connections to your rooftop. When coupled with our RoofGuard Classic guardrails, this system is able to protect workers/contractors from potential falls and trip hazards.
