

## **GARGOYLE** rooftop guardrail

### **DID YOU KNOW...**

"Falls are the second leading cause of accidental or unintentional injuries and deaths worldwide. Each year an estimated 646,000 individuals die from falls globally. Prevention strategies should emphasize education, training, creating safer environments, prioritizing fall-related research and establishing effective policies to reduce risk." - World Health Organization

### **GARGOYLE GUARDRAIL**

A versatile, economic and modular fall protection system designed to protect employees/contractors performing job functions at the leading edge of a rooftop.

Our system requires no penetration of the roof surface. Our counterweighted system utilizes stackable cast steel base plates to provide enough weight on the "returns" to meet all lateral force loading requirements. Consists of aluminum pipe, magnesium alloy fittings and galvanized steel base plates.

**Easy to use, easy to install, saves lives!**

**MEETS AND EXCEEDS ALL MAJOR AMERICAN  
SAFETY STANDARDS**

ANSI

OSHA

# **SPECIFICATION SHEET**

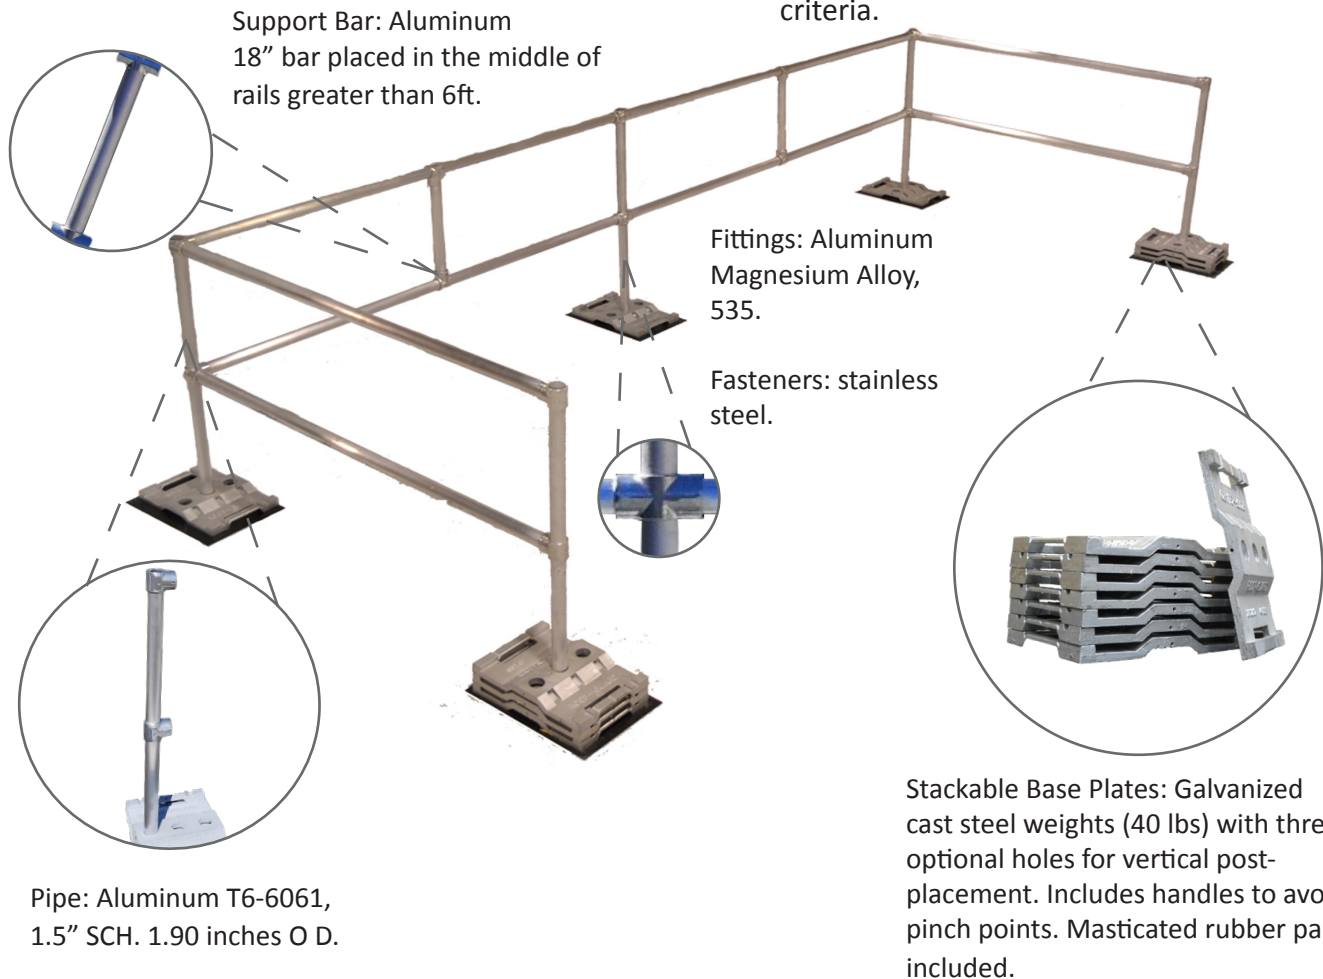

## **GARGOYLE ROOFTOP GUARDRAIL SYSTEMS**

## GARGOYLE ROOFTOP GUARDRAIL SYSTEM: INCLUDING POSTS, RAILS, BASES, AND FITTINGS.

A freestanding counterweighted guardrail system with a 42-inch minimum height provides a barrier for workers on the roof and must be designed to withstand OBC loading criteria.

### WHY GARGOYLE GUARDRAIL?

- Systems are customizable and can be configured to best suit the customer's needs
- User friendly and ergonomic
- Ships on compact skids (low shipping costs)
- Low cost & easy installation
